

# Backwash Procedures

## Step 1:

Turn Off Power. **Very Important...**

## Step 2:

Rotate multi-port handle from filter position (12:00) **Picture A**, to backwash position. (6:00) **Picture B**

## Step 3:

Turn Power Back On

## Step 4:

Let pump run for 1 to 2 minutes or until site glass is clear (located on front of multi-port)

## Step 5:

Turn power Back Off.

## Step 6:

Rotate multi-port handle from backwash position (6:00) **Picture B** back to filter position. (12:00) **Picture A**

## Step 7:

Turn power Back On.

## Step 8:

Add D.E. back to the closest skimmer.

Number of pounds of D.E. per size filter

48 sq.ft = 6 lbs.

60 sq.ft. = 7.5 lbs.

72 sq.ft. = 9 lbs.

## NOTE:

Never rotate multi-port valve while equipment is running!

Never add D.E. while in backwash position or add directly into the pool. Always add D.E. into the skimmer while your pump is running in normal pool mode.
